

Plans & Survey Dept.
Form No. 16
Rev. July 10, 1947

STATE OF OKLAHOMA
DEPARTMENT OF HIGHWAYS
PLANS AND SURVEY DEPARTMENT

FLOOD INFORMATION FORM

To be used in obtaining and transmitting flood water elevations for Plans & Survey office record files. This information to be obtained by all Chiefs of Party in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Garvin Date highwater occurred 5/18/51

Highway number 76 Name of stream Rush Creek

Direction and distance from nearest town, village or store 1 Mile south of Purdy Store.

Section, Township and Range Section 26 - T 3 N. R 4 W.

Description of Location _____

Method obtained From marks in bank. LEVEL.

Elevation 13.4 below 60d Spike Nail Source of levels in twin 30" Elm on north bank of creek and on west side of road.

Was highwater mark obtained from actual water, drift, local resident, U. S. Engineers, etc? _____

Explanatory Remarks There was very little rain in this vicinity at this time.

We found drift 2.3 higher than the above described BM, that was deposited by a previous flood about a year ago.

Location to be shown on back of this sheet as a check.

Field Note: To be sent to Engr. of Plans & Survey (1 copy).
Office Note: To be filed in Flood Information by Counties.
