To be used in obtaining and transmitting flood water elevations for Survey Division office record files. This information to be obtained by all Chiefs of Party or others in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Garvin Date highwater occurred May 31, 1968

Highway number SH # 19 Name of stream Beef Creek

Direction and distance from nearest town, village or store 1.0 Miles West on SH # 19
From the JCT SH # 19 & SH # 74 in Maysville

Section, Township and Range Top Section 20 T 4 N R 2 W

Description of Location _____

Elevation N. A. Source of levels _____

Method obtained Eng. Y-Level Date obtained June 6, 1968

Did it appear to be normal medium extreme do not know

Was highwater mark obtained from actual water, drift, local resident, U. S. Engineers, etc.? Drift
