

STATE OF OKLAHOMA  
DEPARTMENT OF HIGHWAYS  
PLANS AND SURVEY DEPARTMENT

FLOOD INFORMATION FORM

To be used in obtaining and transmitting flood water elevations for Plans & Survey office record files. This information to be obtained by all Chiefs of Party in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County GRANT COUNTY Date highwater occurred October 25, 1964

Highway number US 81 Name of stream None

Direction and distance from nearest town, village or store \_\_\_\_\_  
2.35 miles Northeasterly along present US 81. From Post Office in RENFROW Okla.

Or approx 1050 feet South of CRI & P RR Mile pole # 300

Section, Township and Range SECTION 33 T\*29-N-R-4-W

Description of Location AT Center line of 24"X34'Rdwy RCB, Sta. 615/00 of FAP  
223 E. Approx. 1050 feet South of Mile pole # 300 of CRI & P RR.

Method obtained Y\*Level

Elevation None Source of levels \_\_\_\_\_

Was highwater mark obtained from actual water, drift, local resident, U. S. Engineers, etc? From Information obtained from local Resident Mr. W.J. Scribner and from drift in field on West side of Highway.

Explanatory Remarks Highwater in my opinion was caused by the fact that under CRI & P RR. at this point is only a 24" V.C.P. in place, which does'nt allow proper runoff, Present highway has in this location at Sta. 610/50- 2-5'X2'X30" RDWY RCB. and at Sta. 615/00 is a 24"X.34' RDWY RCB. with total drainage area of 106 Acers C-05 which should have 16' of opening.

Location to be shown on back of this sheet as a check.

Field Note: To be sent to Engr. of Plans & Survey (1 copy).  
Office Note: To be filed in Flood Information by Counties.
