Survey Division  
Form No. 16  
Rev. Sept. 10, 1961

**RECEIVED**

SEP 17 1969

SURVEY DIVISION

STATE OF OKLAHOMA  
DEPARTMENT OF HIGHWAYS  
SURVEY DIVISION

FLOOD INFORMATION FORM

To be used in obtaining and transmitting flood water elevations for office record files. This information to be obtained by all Chiefs of Party or others in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Harper Date highwater occurred SEPT 15, 1969

Highway number US 183-US 64 Name of stream NONE

Direction and distance from nearest town, village or store AT THE WYE

Intersection - Jct US 183 - U.S. 64 IN So. Edge OF Buffalo - SEE ATTACHED PICTURES & SEE REVERSE SIDE.

Section, Township and Range SEC 12 - T27N - R23W.

Description of Location \_\_\_\_\_

Elevation \_\_\_\_\_ Source of levels \_\_\_\_\_

Method obtained Hand Level- AND CLEVELER'S RULE Date obtained SEPT 16, 1969

Did it appear to be  normal  medium  extreme  do not know

Was highwater mark obtained from actual water, drift, local resident, U. S. Engineers, etc.? Drift - silt & water MARKS

Explanatory Remarks I FEEL From Talking To OLD Timers That This is About As High As This water Has Ever Reached - I Live 1 mile North of This & I had 3.50 inches<sup>in 30 min.</sup> in my Rain Gauge - There is No Houses South of This Area, in The watershed Area That could Give me Any Idea As To The Amount, But must of Been more Than The 3.50 in, That I Received Location to be shown on back of this sheet as a check.

Field Note: To be sent to  
Survey Engineer

9-18-69 Note: Jim Berry is a former Chief of Party in the Survey Division Therefore this information can be relied upon.
