

STATE OF OKLAHOMA
DEPARTMENT OF HIGHWAYS
PLANS AND SURVEY DEPARTMENT
FLOOD INFORMATION FORM

To be used in obtaining and transmitting flood water elevations for Plans & Survey office record files. This information to be obtained by all Chiefs of Party in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Logan Date highwater occurred Sept. 25, 1959

Highway number SH 33 Name of stream Cottonwood Creek

Direction and distance from nearest town, village or store In Guthrie, on the SH 33 bridge over Cottonwood Creek.

Section, Township and Range in Section 8, T17N, R1W

Description of Location On the SH 33 Bridge over Cottonwood Creek in Guthrie.

Method obtained Steel tape from bridge seat down to water mark.

Elevation Down 6.1 Ft. from west bridge seat of the overpass & bridge.
~~Source of levels~~

Was highwater mark obtained from actual water, drift, local resident, U. S. Engineers, etc? From water mark shown to us by local resident.

Explanatory Remarks This highwater was 2.2 Ft. lower than the highwater mark painted on the bridge marked May 19, 1949.

Location to be shown on back of this sheet as a check.

Field Note: To be sent to Engr. of Plans & Survey (1 copy).
Office Note: To be filed in Flood Information by Counties.
