STATE OF OKLAHOMA
DEPARTMENT OF HIGHWAYS
PLANS AND SURVEY DEPARTMENT

FLOOD INFORMATION FORM

To be used in obtaining and transmitting flood water elevations for Plans & Survey office record files. This information to be obtained by all Chiefs of Party in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Murray Date highwater occurred 5-11-12-1950

Highway number County Road Name of stream Washita River

Direction and distance from nearest town, village or store 1 1/2 miles west of
of Dougherty, Okla. Project OS 50-1(1) Br.

Section, Township and Range _____

Description of Location reading on concrete floor of 30' T-Beam approach span
on east side and drift and wash where water crossed road about 400' east

Method obtained Wye level East End Br. Floor Elev 761.8

Elevation East edge of HW was 5.8 feet above floor Source of levels HW 767.6

Was highwater mark obtained from actual water, drift, local resident, U. S. Engineers, etc? Reading taken 5-17-50 from drift & wash - very distinct
