 SURVEY DIVISION
FLOOD INFORMATION FORM

Survey Division
 Form No. 16
 Rev. Sept. 10, 1961

To be used in obtaining and transmitting flood water elevations for Survey Division office record files. This information to be obtained by all Chiefs of Party or others in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Noble *File* Date highwater occurred May 16, 1969
 Highway number SH 15 Name of stream Red Rock
 Direction and distance from nearest town, village or store 1/2 mile West of Red Rock Okla.

Section, Township and Range Section 15, T-23-N, R-1-E

Description of Location Actual Highwater on SH 15, at Red Rock Creek, North end of bridge, 11.0 feet below bridge floor North end of bridge, Elev. ~~888.50~~ 899.50

Elevation 888.50 Source of levels XXXXXXXX FAS Plans S-687-1

Method obtained Engineers Level Date obtained May 16, 1969

Did it appear to be normal medium extreme do not know

Was highwater mark obtained from actual water, drift, local resident, U. S. Engineers, etc.? (Actual Highwater) As observed by me.
