

STATE OF OKLAHOMA  
DEPARTMENT OF HIGHWAYS  
SURVEY DIVISION

FLOOD INFORMATION FORM

To be used in obtaining and transmitting flood water elevations for Survey Division office record files. This information to be obtained by all Chiefs of Party or others in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Oklahoma Date highwater occurred November 2, 1974

Future SH 74  
Highway number on Portland Ave. Name of stream \_\_\_\_\_

Direction and distance from nearest town, village or store Wood Bridge on Portland Ave.  
approx. 1000' North of intersection of 150th St. and Portland Ave.

Section, Township and Range Bet. Sec. 1 & 2, T13N, R4W

Description of Location Highwater obtained at 20x8 Wood Bridge on Portland Ave. approx.  
1000' North of intersection of 150th St. and Portland Ave.

Up 0.5 above Floor  
Elevation of wood bridge \_\_\_\_\_ Source of levels \_\_\_\_\_

Method obtained Fennel Level Date obtained November 6, 1974

Did it appear to be  normal  medium  extreme  do not know
