

STATE OF OKLAHOMA
DEPARTMENT OF HIGHWAYS
SURVEY DIVISION

Survey Division
Form No. 16
Rev. Dec. 2, 1974

FLOOD INFORMATION FORM

To be used in obtaining and transmitting flood water elevations for Survey Division office record files. This information to be obtained by all Chiefs of Party or others in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Okmulgee Date highwater occurred 3/16/1990

Highway number S.H. 56 Name of stream unknown

Direction and distance from nearest town, village or store Approx. 2.1 miles west of Okmulgee.

Section, Township and Range Sec 12 T13N R12E

Description of Location Approx. 2.1 miles West of Okmulgee on S.H. 56 on first bridge west of town.

Elevation _____ Source of levels _____

Method obtained Fennel Level Date obtained 3/19/1990

Did it appear to be normal medium extreme do not know

Was highwater mark obtained from actual water, drift, local resident, U. S. Engineers, etc.? drift

Explanatory Remarks Drift and residue on pavt and on handrails of bridge were observed and were 0.1 higher than "X" we cut on NE cor of SE hub guard. S.H. 56 was closed during this period as water was still over the road west of this bridge and had been over this bridge.

Location to be shown on back of this sheet as a check.

Field Note: To be sent to
