

STATE OF OKLAHOMA
DEPARTMENT OF HIGHWAYS
SURVEY DIVISION

FLOOD INFORMATION FORM

To be used in obtaining and transmitting flood water elevations for Survey Division office record files. This information to be obtained by all Chiefs of Party or others in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Osage Date highwater occurred March 12, 1974

Highway number SH 99 Name of stream Sand Creek
(SWO 2397 (2))

Direction and distance from nearest town, village or store Approximately 4 miles
northeast of Pawhuska on SH 99.

Section, Township and Range N. E. Corner of Section 14, T-26-N, R-9-E.

Description of Location At Sta. 1673+39 Sand Creek crossing of SWO 2397 (2).

Elevation 806.6 Ft. Source of levels "USC & GS" Mean Sea Level

11.2 below BM
