 SURVEY DIVISION
 FLOOD INFORMATION FORM

Survey Division
 Form No. 16
 Rev. Sept. 10, 1961

To be used in obtaining and transmitting flood water elevations for Survey Division office record files. This information to be obtained by all Chiefs of Party or others in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Osage Date highwater occurred April 16, 1973
 Highway number SH 123 Name of stream Sand Creek
 Direction and distance from nearest town, village or store Approximately 2 miles southwest of Bartlesville on SH 123.
