SURVEY DIVISION

Survey Division
Form No. 16
Rev. Sept. 10, 1961

FLOOD INFORMATION FORM

To be used in obtaining and transmitting flood water elevations for Survey Division office record files. This information to be obtained by all Chiefs of Party or others in their vicinity in times of unusual high water, or at any time available from a reliable source. The elevations can be recorded by level reading, by measurement from bridge floor, in relation to a house, above roadbed or any other dependable, clear manner that fits the situation, the highest order possible to be used. Separate report to be made on each crossing or place obtained.

County Pottawatomie Date highwater occurred October 20, 1983

Highway number U.S.270 Name of stream North Canadian River

Direction and distance from nearest town, village or store From the intersection of U.S.270 & E.W. section line (E.W. 112) in Dale, Okla., approx. 0.3 miles east.

Section, Township and Range Section 25, T-11-N, R-2-E

Section 36, T-11-N, R-2-E

Description of Location _____

1022.8 south of U.S.270 C/L
Elevation 1025.8 north of U.S.270 C/L Source of levels SW03400(1) Survey

Method obtained GPS (RTK) Date obtained October 09, 2003

Did it appear to be normal medium extreme do not know
