County-IndexNumber-YourEmail-DateOfHighwater

The Index Number (Example: 0001) can be any number; its purpose is to make the filename unique for highwater measurements made on the same day in the same county. For attachments (such as digital photos or scanned map drawings), use the same naming format and index number but add a letter after the index number.

Example filenames for a flood survey form with two photo attachments: Pittsburg-0004-John.Smith@company.com-20140625.pdf Pittsburg-0004a-John.Smith@company.com-20140625.jpg Pittsburg-0004b-John.Smith@company.com-20140625.jpg
