

RECEIVED
AUG 24 1961
SURVEY DIVISION

Oklahoma State Highway Dept.

To Mr. Gaines H. Stout

Date August 22, 1961

From James Berry

Subject Flood information in Woods and Alfalfa County.

Attached please find copies of flood information which occurred on August 19, 1961. This was reported to be a 9" rain that fell, to any extent, in the tributaries of Driftwood Creek. I obtained this information South of Hardtner Kansas on US 281 at Driftwood Creek, at SH 8 Approx 3 miles West and 1 mile North of Burlington on Driftwood Creek, and 1 Mile West of Burlington at Driftwood Creek, and 2 Miles South of Driftwood Oklahoma at Driftwood Creek. Driftwood Creek was the only Creek that was flooded. Most of the rain fell in Kansas.

I checked SWO 2213(1) Additional drainage Information on SH 8 Approx. 4.0 Miles South of the Oklahoma-Kansas State Line and there were no flooding conditions at this time.

All of this information was very plain as drifts and silt were present and highwater marks were on Telephone poles trees Etc. With the help of the Maintenance foreman of Woods County and local residents this information was obtained very accurately.
